

## **Annual Assessment Report Outline**

In an effort to provide assessment information to the campus-wide community and to inform our program, the School of Education compiles, analyzes, and evaluates data and information collected from a variety of sources, standardized test results, and avenues of feedback. This report is shared with the Wisconsin Lutheran College Assessment Committee, posted on the School of Education website, and utilized for establishing annual departmental goals and initiatives and determining budgetary priorities. This report is framed around the following six questions:

1. What has your department done for assessment of your department goals?
2. What results/data did your department find?
3. What did your department learn as a result of this assessment process?
4. What changes did your department make or identify to be made as a result of what you learned?
5. How did your department address the Ten Academic Goals of Wisconsin Lutheran College?
6. Key Questions for Teacher Education Discipline Measurement of Student Learning.
